ANCESTRY OF LOUIS LAGOMARSINO AND DESCENDANCY OF HIS ANCESTORS

This study evaluates the maternal ancestry of Louis Lagomarsino, who in 1880 was a neighbor of Joseph and Virginia Ferrea, and also the descendancy of some of his ancestors. The purpose of this study is to seek to establish whether some relationships exist among some of the Lagomarsino familie who appear in the early San Francisco city directories and census reports.

As stated in "LAGOMARSINO FAMILY LIVING WHERE GIUSEPPE FERREA LIVED IN 1880 (updated 20110917).wpd," no birth record for Louis Lagomarsino, neighbor to Joseph and Virginia Ferrea, can be found in Tasso. However, as also stated in that same research document, the birth record of his sister, Guiditta (Benita), and the marriage record of his mother and father are found in Tasso. The marriage record for Louis' mother (IMG_2931.JPG) provides:

While the above marriage record indicates that Steffano Lagomarsino (the groom) was 27 years of age in 1841 (placing his birth in about 1813/1814, a search in the Tasso christening records from 1809 (IMG_3595.JPG) through 1817 (through IMG_3612.JPG) reveals no birth or baptism for him. Since his 1841 marriage record indicates he was, at that time, a native not of "Tasso" but of "Lumarzo" and at that time a resident neither of "Tasso" nor of "Lumarzo" but specifically of "**Lagomarsino**," the likelihood is that at the time of his birth in about 1813/1814, his parents were residents of **Lagomarsino** (or Genova). This **Lagomarsino** residence may be a key.

As for Cattarina Lagomarsino (Steffano's wife), the 1841 marriage record indicates she was 18 years of age at the time (placing her birth in about 1822/1823). The record indicates she was a native of Tasso. While there is no birth or baptism of any Cattarina Lagomarsino in 1822 or 1823, there is a 23 Aug 1824 baptism (IMG_3629.JPG):

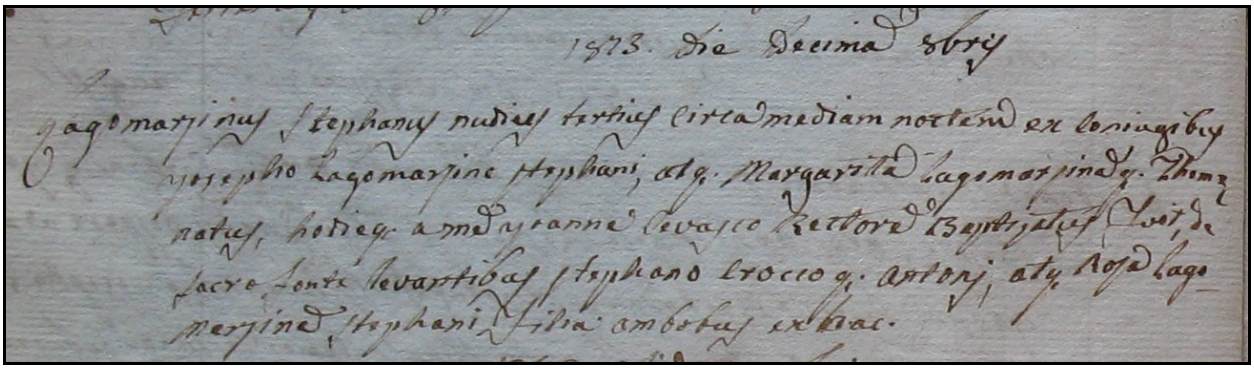

1824 Die 23. Augusti
Lagomarsino Catharina hac mane ex conigibus Josepho Lagomarsino Stephani, atq. Margarita Lagomarsino q. Thome nata, ...

With her other siblings, Catharina Lagomarsino's family group appears to be as follows: **(1)** Bartolomeo (13 Feb 1810; IMG_3597.JPG); **(2)** Stefano (10 Oct 1813; IMG_3604.JPG); **(3)** Rosa (26 Jun 1817; IMG_3611.JPG); **(4)** Giovanni (23 Jan 1820; IMG_3618.JPG); **(5)** Giovanni (2 Jun 1822; IMG_3623.JPG); and **(6)** Catharina (23 Aug 1824; IMG_3629.JPG).

The parents' 29 Nov 1803 marriage is recorded at IMG_3922.JPG:

(Two searches in the years 1804 to 1810 uncover no births of children to this couple prior to the 13 Feb 1810 birth of Bartolomeo.)

The descendancy of Cattarina's parents—Giuseppe and Margarita and their children—therefore appears to be as follows:

* *Searches for deaths conducted from 1810 (IMG_4012.JPG) through 1834 (IMG_4070.JPG) and none found except as shown below at *** and ****.*

** *Searches for marriages conducted from 1826 (IMG_3953.JPG) through 1854 (IMG_3055.JPG) and no marriages are recorded of any children of Giuseppe and Margarita Lagomarsino other than that of the 1841 marriage of Cattarina Lagomarsino to Stefano Lagomarsino.*

*** *Rosa perhaps died 26 Jan 1828 (IMG_4055.JPG).*

**** *Giovanni died 30 Jan 1820 (IMG_4037.JPG).*

It appears that absent a search in other parishes (such as the Parish of Santa Maria Maddalena in the frazione di Lumarzo, Comune di Lumarzo (which served the frazione di **Lagomarsino**)), we cannot know for sure whether the four other children of Giuseppe Margarita (the ones who apparently survived childhood, evident from the naming patterns), ever married; and absent a review both of any possible surviving Lista di Leva (for the males 21 years after their respective births) and of Italian and American death records for 110 years beyond their respective births, knowledge whether any of them happen to have emigrated to America will be evasive. It is unlikely Catterina was the only to marry and have children. Catterina is **RIN 2322**.

Interestingly, it may very well be, also, that the Lagomarsino family into which was born Teresa Lagomarsino (mother of Giuseppe Giovanni Battista Ferrea) likewise may have come from (or at least lived in) the **frazione di Lagomarsino**, comune di Lumarzo.
